

COVID-19 Considerations for Intramural Activities

The content within this section reflects the **Ministry of Educations: COVID-19: Health, safety and operational guidance for schools (2021-2022) Version 5** (updated February 10, 2022).

It is important to review your school board's policies and requirements as they may have established higher COVID-19 safety measures. Some public health units might require additional health and safety measures based on local public health data.
