

## Sample Swim Ability and Swim Comfort Assessment Questionnaire Form

Prior to participation in watercraft activities, teachers must be aware of all students' swim ability and swim comfort. The sample questionnaire is a tool that may be used by the teacher when gathering information from the parent/guardian about a student's swim ability, swim experience, and comfort in various bodies of water in which the activity takes place (e.g., pools/ponds/lakes and rivers). The tool is meant to be used in curricular, intramural and interschool settings.
