

Soccer

Indoor/Outdoor

SECONDARY - INTERSCHOOL 2024

- Consult [Risk Management](#).
- The safety standards for this activity must be presented to the activity provider prior to the activity taking place. The activity provider must meet the minimum requirements listed in the safety standards. For more information on planning trips using outside providers, consult [Outside Activity Providers](#).
- Consult curricular [Fitness Activities](#) and curricular [Weight Training](#) when involving participants in weight training and/or training and fitness development activities.

Equipment

- Determine that all equipment is safe for use (for example, no sharp corners, cracks, or splinters). Students must be encouraged to report equipment problems to the Coach.
- Protective equipment must not be altered (for example, cutting a portion off the back of mouth guards).
- Shin pads must be worn.
- Size and weight of soccer ball must be appropriate to the age and skill level of participants.
- Outdoor soccer balls must not be used indoors in gymnasium settings for games or shooting on goalie, but may be used for indoor drills.
- Sponge, futsal or indoor soccer balls are to be used for indoor (gymnasium) school soccer games.
- Outdoor soccer balls can be used in covered/domed complexes.

Refer to the [First Aid](#) section for first aid equipment requirements.

Clothing/Footwear/Jewellery

- Appropriate clothing and footwear must be worn.
- Consult your school board/sport governing body in regard to appropriate footwear.
- No metal cleats permitted.
- The wearing of jewellery during practices and competitions must meet the rules of the governing body of the sport/activity, [OFSA](#), and local athletic association. Consult the [General Safety Standards for Clothing, Footwear, and Jewellery](#) when jewellery is not addressed by the governing body of the sport/activity, OFSA or the local athletic association.
- When long hair poses a safety risk it must be secured. Devices (for example, hair pins, elastics and barrettes) used to tie back long hair must not present a safety concern.
- Students must not participate when the length of fingernails poses a safety risk to themselves or others.

Facilities

- Determine that all facilities are safe for use. Students must be encouraged to report facility problems to the Coach.
- Indoor playing surface and surrounding area must be free of all obstacles (e.g., tables, chairs), and must provide safe footing and traction.
- Outdoor playing area must be free from debris and obstructions and be well-removed from traffic areas.
- Practices: Holes, hazards (for example, glass, rocks, sprinkler heads, sewer grates), and severely uneven surfaces must be identified. The conditions must be made safe or the activity must be modified or moved to a safe location. Hazards which cannot be removed must be brought to the

attention of the students. The Coach must notify the Principal/Designate of unsafe field conditions.

- Competitions: Where hazardous conditions that cannot be avoided are identified by the Coach and/or officials the conditions must be made safe or the competition must be cancelled or moved to a safe location. The Coach must notify the Principal/Designate of unsafe field conditions.
- Walls, stages, equipment, trees, and posts must not be used as turning points, finish lines, end zones, or boundaries. Establish a clearly delineated boundary line away from the hazards, using visual markers (for example, lines, pylons), to prevent contact/collision.
- Consult [General Safety Standards for Facilities](#) for the opening and closing of gymnasium divider doors/curtains.
- When running takes place off school site for a warm up, conditioning run and/or is an integral part of the activity:
 - Coaches must do a safety check 'walk through' in order to identify potential problems prior to initial use of route or course.
 - Coaches must outline to the students the route or course (for example, notice of areas to approach with caution) before the start of the run.
 - Coaches must determine that students are not crossing busy intersections unless directly supervised.

Permanent Goalposts

- Permanent goal posts must be checked that they are in safe condition and that the concrete footing at the base of the posts are covered and do not pose a hazard.
- The netting on goalposts must not present a hazard (for example, tripping, strangulation). Where appropriate netting is not available, refrain from using netting.

Portable Goalposts

- A portable goal is described as a freestanding structure that can be moved to different locations.
- A portable goal used on a natural ground surface, artificial turf, or a hard surface (for example, black top) must be located on a level surface and securely anchored in accordance with the manufacturer's

instructions.

- When there are no instructions:
 - attach the goals securely to the ground, if the goal is located outdoors; or
 - attach the goals securely to the floor or the wall, securing them with weights, if the goal is inside.
- If there are no straps/clamps, use another system to secure portable goals to the ground to prevent tipping (for example, weighted material).
- The netting on goalposts must not present a hazard (for example, tripping, strangulation). Where appropriate netting is not available, refrain from using netting.
- Portable goals must be inspected on a regular basis for anything that would hinder effective movement (for example, defective wheels).
- Prior to use, goals must be checked to determine that they are secure in such a way that they will not tip over.
- Students must be instructed to not climb, hang, or swing on the goals.
- Portable goals that are not in use or are in storage must be secured in such a way that they do not pose a risk of tipping and do not present a hazard (for example, taken apart, chained face to face).

Environmental Considerations

- When environmental conditions may pose a risk to student safety (for example, thunderstorms [lightning] or student(s) with asthma, triggered by air quality), Coaches must take into consideration their school board/school's protocols and procedures related to:
 - environmental conditions (consult [Weather](#)); and
 - insects (for example, mosquitoes and ticks [consult the school/school board's protocols and/or regional Public Health Department's website]).
- Students must receive instruction on safety procedures related to environmental conditions and be made aware of ways to protect themselves (for example, sun burn, heat stroke).

- At all times the school board's weather and insect procedures are the minimum standards. In situations where a higher standard of care is presented (for example, outside activity providers, facility/program coordinators), the higher standard of care must be followed.

Special Rules/Instructions

- Be aware of students whose medical condition (for example, asthma, anaphylaxis, casts, previous concussion, orthopaedic device) may affect participation. Consult [Medical Conditions](#).
- Prior to participation students must receive concussion information through the appropriate Ministry of Education's Concussion Awareness Resource or the school board approved concussion resources. Students must also receive information on:
 - the Concussion Code of Conduct;
 - concussion prevention strategies specific to the activity and inherent risks of the activity (that is, outline possible risks and ways to minimize the risks);
 - procedures and rules for safe play; and
 - the importance of reporting symptoms related to a suspected concussion.
- Students must confirm their review of the concussion awareness resource and Concussion Code of Conduct prior to participation.
- Refer to school board policies and procedures (i.e., transportation, excursion/field trip) for communication with parents/guardians, the location of an off-site activity, means of transportation, supervision ratios, and parent/guardian permission.
- Previous training, fitness level, and the length of time and intensity of physical activity must be taken into consideration.
- Activities must be based on skills that are taught.
- Skills must be taught in proper progression.
- A proper warm-up and cool-down must be included.

- Emphasize controlled movement when requiring students to walk or run backwards. Backward-running races are not permitted.
- When involved in practice drills, students must not be required to close their eyes or be blindfolded.
- Fair play and rules of the sport must be taught and strictly enforced.
- Adequate liquid replacement (personal water bottles, water fountains) must be accessible for students before, during, and after physical activity to prevent dehydration.
- Students must be informed that they are not to share water bottles.
- An exposed orthopaedic apparatus that represents a safety concern to other players must be soft or padded. Such devices must be approved by the referee prior to the commencement of the game.
- Any player with a playing cast must provide a doctor's note or parent/guardian signed permission indicating it is safe for them to play.
- Limit time spent on heading drills.
- No tackling from behind.
- The Teacher must provide instructions to the students regarding the safe movement of the portable goals. Only students who have been properly trained can assist the Teacher with moving portable goals. Direct Supervision is required.
- The Teacher must establish and direct students to a designated area, away from the path of the moving portable goals, to avoid students interfering/colliding with a moving portable goal.
- Parents/guardians must be informed of the school board's policy related to initiation/hazing activities.
- The presence and location of spectators must not present a safety concern. A school is responsible for supervising its own spectators. The ratio of supervisor to spectators must address safety concerns.
- Students must be informed that the use of equipment and the gymnasium are prohibited without supervision. In addition to verbal communication, the doors must be locked or signs must be posted indicating that students are not allowed to use the gym unless appropriately supervised.

Supervision

- All activities must be supervised.
- The type of supervision must be commensurate with the inherent risk of the activity. The level of risk is related to the number of participants, the skill level of the participants, the type of equipment used, and environmental conditions.
- On-Site Supervision is required during the safety and initial skill instruction.
- On-Site Supervision is required for the duration of all other components of the activity (e.g., equipment setup and take down, warm-ups/cool downs, application of the skills and games).
- The Community Coach Liaison must be accessible to the Community Coach and students (at practices and competitions). The level of support will be commensurate with the expertise and qualifications of the Community Coach as determined by the Principal/Designate.
- As a minimum the Community Coach Liaison will provide In-the-Area supervision for all practices and competitions. Direct Supervision is required if a Community Coach is under the age of 18.
- When students are competing outside their school district (e.g., travel tournaments, regional/ provincial competitions):
 - a Community Coach Liaison from the same school board must be accessible to the Community Coach; and
 - consult school board and local athletic association rules and regulations with regard to Coach, Community Coach, and Community Coach Liaison duties and adhere to the higher standard of care.
- Where a Qualified Instructor is used, the Qualified Instructor must provide safety and initial skill instruction and monitoring for the safe application of skills and student behaviour for the duration of the activity.
- A Volunteer, under the direction of a Coach, can monitor students during practices and competitions. Refer to your school board's policy on volunteers assisting with students' physical activities.
- Responsibilities must be clearly outlined for additional Coaches and Volunteers who are monitoring the activity.

Qualifications

- Game/match official(s) must be certified and/or experienced in officiating the sport.
- The Head Coach must demonstrate knowledge of the sport, skills, and strategies to the Principal or Designate.
- All Coaches must be familiar with and implement, where applicable, the criteria outlined in [Coaches Expectations](#).

First Aid

- A fully stocked first aid kit must be readily accessible. (Consult [Sample First Aid Kit](#))
- A working communication device (for example, cell phone) must be accessible.
- An individual who takes responsibility for providing first aid to injured students must be knowledgeable of the school board's concussion protocol and must follow the school's first aid emergency action plan, including accessibility to a vehicle for transportation of a student to hospital (consult [First Aid Plan and First Aid Emergency Response](#)) and be present during the entire practice/competition.

Definitions

- **Coach** (i.e. Teacher Coach/Community Coach):
 - An individual who volunteers to coach a school team and is approved by the Principal/Designate.
- **Community Coach:**
 - An individual approved by the principal who volunteers to coach a school team. An individual acting in the role of a Community Coach must be assigned a Community Coach Liaison.
 - Examples of a Community Coach are:
 - teachers not under contract by the board;

- retired teachers;
- early childhood educators, teacher candidates, educational assistants;
- co-op students, other secondary students;
- parent/guardian;
- individuals/coaches from the community.

- **Community Coach Liaison:**

- A Teacher, Principal, or Vice Principal with a current certification from the Ontario College of Teachers and under contract by the school board who is responsible for carrying out all the duties required of a Teacher pursuant to the Education Act and the safety standards. The level of support will be commensurate with the expertise and qualifications of the Community Coach and will be determined by the Principal or Designate.

- **Monitor:**

- A Volunteer and/or Qualified Instructor who assists the Teacher Coach with a group of students and has a responsibility to monitor student behaviors for the duration of the activity.
- A Community Coach who has a responsibility to coach and monitor student behaviors for the duration of the athletic season and/or a Qualified Instructor(s)/Volunteer(s) who assists the Community Coach during practices and competitions.

- **Monitoring:**

- The role of monitoring is to observe, identify, act, and report:
 - Observe: Observe with attention to detail the actions of the students.
 - Identify: Identify the student and the unsafe behaviour.
 - Act: Take appropriate actions to safeguard students and others (e.g., stop the activity).
 - Report: Provide the name of the student and the unsafe behaviour to the Coach for management and direction.

- **Qualified Instructor:**

- An individual who provides safety and skill instruction, and monitoring for an activity, and possesses the required qualifications (e.g., experience, certifications). This role could be fulfilled by a teacher, volunteer, or an employee of an outside provider. An instructor does not have the authority to supervise.

- **Supervision:**

- The vigilant overseeing of an activity for management or direction. Activities, facilities, and equipment have inherent risks, but the more effectively they are supervised, the safer they become.
- The Ontario Physical Activity Safety Standards in Education includes three Types of supervision, Direct Supervision, On-Site Supervision, and In-the-Area Supervision. These types of supervision take into consideration the level of risk, which is related to the number of participants, the skill level of the participants, the type of equipment used, the environmental conditions, the age, and developmental stage.
- The three types of supervision described are not hierarchical but represent the type of supervision that activities require and the type of supervision that is inherently possible.
- Some activities in OPASSE transition from one type of supervision to another type of supervision (e.g., Direct Supervision to On-Site Supervision OR On-Site Supervision to In-the-Area Supervision).

- **Teacher Coach:**

- A Teacher Coach is a teacher, principal, or vice principal with a current certification from the Ontario College of Teachers and under contract by the school board.

- **Types of Supervision:**

- **Direct Supervision:**

- Direct Supervision requires that the Coach is physically present at the activity, providing visual and verbal oversight for management and direction of both the activity and student

safety.

- **Provisos:**

- No other activity can occur when part of the activity or the entire activity is under Direct Supervision when there is only one Coach supervising.
- The Supervision section of the relevant activity safety standards page in the Ontario Physical Activity Safety Standards in Education describes when parts of an activity are under Direct Supervision.
- Where a Community Coach is providing the safety and initial skill instruction and monitoring, a Community Coach Liaison is accessible for management and direction as determined by the Principal/Designate.

- An activity may be under Direct Supervision:

- During the entire duration of the activity;
- During the set up and take down of equipment;
- During the safety and initial skill instruction;
- During the performance/practice of the activity skill; and
- When the activities transition from Direct Supervision to On-Site Supervision.

- **In-the-Area Supervision:**

- The Coach is located in proximity to a combination of locations where the student activities take place, is circulating, and is accessible for providing management and direction of the physical activity and student safety.

- **Provisos:**

- The Coach is circulating between the activities, occurring at separate locations, and is readily accessible, or the location of the coach is communicated to the student.

- Where a Community Coach is providing the safety and initial skill instruction and is monitoring, a Community Coach Liaison is accessible for management and direction as determined by the Principal/Designate.
 - Students may be out of sight for periods of time.
- An activity or a component of the activity is under In-the-Area Supervision:
 - Where the same activity is located in separate locations. (e.g., Track and Field, Cross Country Running, Skiing (Alpine));
 - Where two or more activities under In-the-Area Supervision occur in separate locations (e.g., Badminton, Table Tennis, Handball (Wall));
 - Where the skill application of the activity takes place at a different location from the Coach (e.g., Cross Country Running, Skiing (Alpine), Cycling);
 - Where activities occur in double or triple gymnasiums; and
 - Where more than one Qualified Instructor is providing activities at a combination of locations.
- **On-Site Supervision:**
 - The Coach is present at one location where the student activity takes place (e.g., gymnasium, sports field, tennis courts at an Outside Activity Provider's facility) and is accessible for providing management and direction of the physical activity and student safety.
 - **Provisos:**
 - Where more than one activity occurs in one location, the Coach is circulating between the activities and is accessible for management and direction.
 - Momentary presence in adjoining rooms (e.g., equipment room, outside storage shed, boathouse) is considered to be On-Site Supervision.

- Where a Community Coach is providing the safety and initial skill instruction and monitoring, a Community Coach Liaison is accessible for management and direction as determined by the Principal/Designate.
- An activity may be under On-Site Supervision:
 - During the entire duration of the activity;
 - During the safety and initial skill instruction;
 - With activities using multiple stations while the Coach is circulating;
 - When combining two or more activities at one location while the Coach is circulating; and
 - When activities transition from On-Site Supervision to In-the-Area Supervision.

- **Volunteer:**

- A responsible adult (e.g., Educational Assistants, Retired Teachers, Co-op Students, Parents/Guardians, Teacher Candidates) approved by the Principal/Designate who is under the direction of a Coach and has been instructed on their monitoring responsibilities. Refer to your school board's policy on volunteers assisting with students' physical activities.
