

# Sample Wind Velocity Preparedness Guide

## Role of Teachers, Coaches, Intramural Supervisors

---

Where appropriate, prior to and during outside physical activities, check for wind warnings and cancel and/or make accommodations to activities where winds pose a hazard to students.

## Tool that can be used

---

Anemometer –an instrument for measuring the speed of the wind (handheld model - \$100.00).

## Actions that Must be Taken

---

This section outlines actions that must be taken dependent upon the velocity of the wind.

*For water activities follow the wind guidelines for participation/cancellation of the governing body of the activity (for example, rowing, sailing), outside activity provider, or school board.*
